Even More Support

midwivespac endorses 6 additional candidates for the House of Delegates

The midwivespac is proud to announce the endorsement of six additional candidates for Delegate for the upcoming 2005 General Election. Endorsements were made on the basis of the delegates' voting records and/or their responses to a survey on access to birth options that was sent to all candidates for the Virginia House of Delegates.

The following five candidates have demonstrated strong support for the midwivespac agenda of better access to more birth options for women and families:

Delegate Mark Sickles (D-43), David Toscano (candidate, D-57), Delegate Roslyn Tyler (D-75), Delegate Vivian Watts (D-39), Delegate Albert Eisenberg (D-47), and Delegate John Welch (R-21).

"I am happy to announce the addition of six more candidates who share our views. It is exciting that so many candidates share our values regarding birth options," said Brynne Potter, Chair of the midwivespac.

The midwivespac is an organization composed of citizens of the Commonwealth who support the mission of furthering policies that will provide access to all maternity and birth choices for Virginia families. For more information please visit our website at <http://www.midwivespac.org>
